Dear Parent/Guardian

At Shailer Park State High School, attendance matters!

We work from the basis that every day, every hour, every minute of teaching and learning is valuable. Our overarching philosophy is that every minute matters!

We encourage all of our students, parents and carers to commit fully to this ethos. We expect our students to be at school on 100% of school days, with genuine illness being the only reason for absence from school.

We would also advise all parents and guardians that according to section 176 (1)(b) of the Education Act 2006, the parent of a child of compulsory school age (6 ½ - 16 years of age) has the obligation to ensure their child is attending school on every day, for the education program in which the child is enrolled.

At Shailer Park High, we are passionate about education. We are passionate about learning. We are passionate about student achievement. We are passionate about ensuring that each and every one of our students succeed beyond school and in their lives. We know that attendance at school is central to all of these goals! As a member of the Shailer Park High school community, parents and carers are expected to commit to ensuring each child is at school each and every day.

In building the type of school that we all want to send our students to, I would urge you to join me in ensuring that your student is at school each and every school day and in making this the platform of our great school.

Yours sincerely

Troy Ascott (Principal)
